

2

were several more scattered through the train, ostensibly passengers, but prepared to protect the company's property. Fifty of the men hired yesterday at Jersey City by Supt. Donnelly this morning. It is believed that they will take the place of the fifty strikers who went out yesterday.

A corps of cooks arrived at the Commuters yard this morning and began to set up the stoves on which to cook food, which will be furnished for the police. One of the special officers said that the company had bought 500 worth of food already.

**PERTH AMBOY ASKS FOR HELP.**  
Deputy Sheriff Sworn In to Meet Prospective Trouble.

**NEW BRUNSWICK, N. J., Nov. 21.**—Supt. Donnelly, of the Lehigh Valley road, in charge of the traffic at Perth Amboy, sent word to Richard Service, Sheriff of Middlesex County, this morning that he feared trouble at Perth Amboy from the striking employees and their sympathizers. He asked for protection.

Fifty deputy sheriffs and constables were immediately sworn in and they went to Perth Amboy this morning in charge of Deputy Sheriff Service. They were armed with heavy clubs and revolvers.

In haste to get a force at the scene of prospective trouble some business men were deputized against their wishes. They are paid \$1 a day and live at the county's expense. J. Nov. 21.

**TRAINMASTER BROADBENT**, of the Lehigh road at this station, said this morning that there was a break in the train of the strikers, and he felt sure that before the day had passed his line would be in a state of anarchy.

The strikers held a meeting this morning at 10 o'clock at the Lehigh road station. J. Nov. 21.

Supt. Donnelly, of the Lehigh road, reached Perth Amboy late last night and stayed at the Parker House. He left for Easton at 7:30 o'clock this morning.

The strikers told of the running up and down the yards of a train of fourteen coal cars all yesterday with only four men to handle them.

They declare that such a course was reckless, as they are not really capable of handling the locomotive. Up to a late hour none of the Western railroad men from the Lehigh, Burlington and Quincey road had put in an appearance. The strikers say that they will not either.

**BLOCKADE IS BROKEN.**  
The Situation in Buffalo Is Clearer To-Day.

**BUFFALO, N. Y., Nov. 21.**—The 15th morning of the strike found affairs on this end of the Lehigh Valley system in much better condition than they have been in at any time since the trouble began. Freight has been moved East, much more, to be sure, but then, the blockade has been broken.

The company is getting plenty of men to take the place of the strikers, and is in better condition than ever to handle the freight that has accumulated since so soon as the conditions at Sayre will permit. Sayre still continues to be the point of blockade.

Chief George W. Smith said this morning that the 15 engineers sent East yesterday had been ordered to go to Sayre, Manchester and Coxton. They did not attempt to work until this morning. Nearly a hundred applications lay on Mr. Smith's desk this morning. An assistant was busy reading them and dictating answers.

A message just received from Indianapolis said that a party of twenty experienced railroad men were prepared to start at once if their services were wanted. Personal applications coming in so fast that the office force could hardly attend to them.

**GUARDED FREIGHT TRAIN.**  
It Passes Through Elizabeth and Is Guarded with Jeers.

**ELIZABETH, N. J., Nov. 21.**—A heavily loaded freight train bound east and guarded by twenty well-armed men passed through this city at 9:25 this morning. The guards had Winchester and revolvers.

As they passed the Central Railroad station here a crowd of crowd employees, who were standing on the platform, hooted and jeered them and shouted "Just wait until to-morrow!" Whether this threat was meant to stop the train, or that the Central employees would go on a sympathetic strike, cannot be ascertained at present, as the men who did the shouting refuse to say what they meant.

**STRIKERS ISSUE A BULLETIN.**  
Will Call Out the Men of Other Roads if Necessary.

**ROCHESTER, N. Y., Nov. 21.**—At 12:30 this morning the local board of strikers issued the following bulletin, exclusively to the Associated Press:

"Every operator between Sayre and Buffalo, except five agents, who are under bond, and one non-union man under bond, all other men, are out on the strike territory covered by this road. 'Non-union' men who have been imported to take strikers' places, have all been won over to our side and are now out."

"The whole territory is completely tied up. Not a wheel is being turned at this hour."

"The Rochester Division is now completely tied up. The conductors went out at 11 P. M."

A member of the Board said to the Associated Press representative:

"If necessary, men on the other roads will be called out promptly, together with the Central, the others to follow. Everything to-night is in our favor."

## QUEEN LIL STILL OUT.

(Continued from First Page)

At 11:30 he returned and was accorded the usual salute.

**EX-QUEEN CALLS ON WILLIS.**  
Last Monday morning the ex-queen, who was unexpectedly called upon by Minister Willis at the United States Legation in Paris, returned to the Legation on Monday morning. She remained at the Legation until twenty minutes past five, when she left the Legation. The ex-queen's action created much unfavorable comment. It suggested that the Royalists as well as the annexationists.

**HAWAIIAN FINANCES.**  
This afternoon the Minister of Finance will submit a statement at the regular session of the Council which will show the financial condition of the Hawaiian Islands. The statement will show that the cash surplus of the Hawaiian Islands is \$125,000, and that the total amount of bonds sold to date under the loan account is \$1,000,000.

This will allow the Government to carry out all the appropriations authorized under the loan account. The Minister of Finance states that all the current expenses of the Government have been ordered paid, and that under the present favorable conditions he expects to largely increase the surplus cash in the Treasury.

**REASON OF SKERRETT'S RECALL.**  
It has been rumored that the reason of Admiral Skerrett's recall from this station was because he refused to accept a hall given by the Annexation Club to the officers of the United States ship Boston, as a farewell gift. The officers of the United States ship Philadelphia as a well-known.

Admiral Irwin was officially received at the Executive Building on Saturday. Upon the arrival and departure of the party the Government band played American National airs.

**REPORT OF SPEECH AMENDED.**  
After the foregoing was written Minister Willis in an interview declared that the reason of the recall was not the American League should be multiplied to include that he would like to see the stripes waving over the Hawaiian Islands.

"Extra, 10:30 A. M.—President Cleveland proposes to restore the monarchy. His press having been delayed late this morning waiting for the arrival of the steamer from Auckland and Sydney, and the expected news, we hasten to give in an extra the more important items received here."

"As President Cleveland can act in the Hawaiian matters, only by the authority of Congress, it remains to be seen whether Congress will sustain him in the project of restoring the monarchy. As the telegram comes via London, it may not be strictly correct, but we give it as received here."

"The following is clipped from the New Zealand Herald, of Nov. 4, with Washington dated Nov. 19, 1893. It is later than our news that we have received here."

"WASHINGTON, Nov. 2.—President Cleveland is drafting a message in Congress in favor of the Hawaiian monarchy."

"When the attention of Minister Willis was called to the above despatch from Washington, he declined to express an opinion. It is the belief that the despatch is unfounded. At the last moment, however, it is believed that the Hawaiian Government has accepted the offer, but it is certain it will be able to maintain the blockade."

**WAITING FOR A RECEIVER.**  
The American Casualty Office Are Closed To-Day.

The officers of the American Casualty Insurance and Security Company, at 41 Pine street, the directors of which yesterday decided to apply for a receiver, were in charge of Treasurer Richard K. No business, however, is being done, and the officers are awaiting the appointment of a receiver, which is expected to be made to-day in the Baltimore courts, for the company is a Maryland corporation.

The company is not in charge of Supt. James F. Pierce, of the State Insurance Department, as reported. It has simply taken notice of the bankruptcy of the company, and has reported the matter to the Attorney-General at Albany. So that he may take the necessary steps to protect the policyholders in this matter.

His deputy, Mr. Shannon, said this morning that as soon as notice of the appointment of a receiver in Maryland had been received the Attorney-General would apply for the appointment of an auxiliary receiver, who would take charge of the assets of the company in this State. There was a fear that the company might be taken over by the State Banking Department, for the protection of the policyholders in this State, which is still intact.

**STILL HIRING MEN.**  
Another Crowd of Applicants, Presumably for Lehigh Service.

Another big crowd of men was on hand in the billiard-room of the United States Hotel this morning in answer to the advertisement in yesterday's papers for railroad men wanting work or willing to leave town.

These men, he told in yesterday's "Evening World," are presumably to fill the places of the strikers on the Lehigh Valley road. The men in charge do not deny this.

The work of signing men was apparently done in the afternoon, this morning. There was no confusion, the work having been reduced to a system. The applicants, who were mostly probably seventy-five or a hundred were made to form in line at the back of the hall and wait their turn to see the men in charge. It is believed that the necessary work will be done by the men in charge, and that the strikers will be able to return to work.

**INDIGMENTS LOOKED FOR.**  
Grand Jury Still Probing Madison Square Bank Affairs.

Several Ex-Directors Now Said to Be Implicated.

The Grand Jury convened at 10 o'clock this morning, an hour earlier than usual to give their undivided attention to the charges against the directors and officers of the Madison Square Bank. Assistant District Attorney Davis was present with a large bundle of documentary evidence.

Ex-Cashier Lewis Thompson is again being examined by Mr. Davis, who is conducting the hearing for the Grand Jury. A man named Leopold, a former clerk of the bank, is known to be called and told what he knows regarding the bank's affairs.

It is reported around the District Attorney's office that several people not heretofore mentioned are implicated in the management of the bank. These people are said to be directors who have resigned from the Board.

Among the witnesses called before the Grand Jury today in the case were W. K. Thompson, ex-cashier of the bank's office; Leopold Michel, a bookkeeper in the Madison Square Bank; Robert McGill, a Madison Square Bank clerk; and others.

The Grand Jury adjourned for the day at 1:30. No bills were found today.
